Re: Facility ID # 45-0164
Permit Number: **969580G**

Dear Mr. Rickabaugh or responsible official:

The Division of Air Pollution Control is completing file reviews to identify permits approaching their expiration date. It has come to our attention that permit number **969580G** is due to expire on **January 26, 2016**.

If this source has begun operations, please submit a complete operating permit application and start-up certification if required. However, if start-up has not occurred, it may be necessary to request an amendment to extend the permit's expiration date.

Application form CN-0730 (APC 100) and instructions are online at:
(<http://www.tn.gov/environment/article/permit-air-air-quality-state-operating-permit>).

You now have the option of submitting your application via email to Air.Pollution.Control@tn.gov. The submittals must be signed, dated, and in PDF format. If preferred, paper documents can be mailed to the address found on the application.

Please ensure all conditions of this permit have been met, including other possible deadlines and record keeping requirements.

Should you have any questions, feel free to contact me at (865) 594-5568 or Jarrett.L.Rudd@tn.gov. If the application process has already begun, please disregard this letter.
